

# Wall-mounted boards winged

Our three and five surface boards are made with strong hinges for very intensive use. Each board can have several customised surfaces: such as different lines, chalkboard surfaces and/or whiteboard surfaces. We manufacture bespoke products just as quickly as standard products.

## RC-10 three and five surface boards

Whiteboards with wings provide additional writing space. We use this RC-10 profile to produce whiteboards with three or with five writing surfaces. The profile is anodised aluminium with grey corner pieces. Includes 30 cm pen tray

### RC-10 winged whiteboard, white enamel

- Writing surface of white enamelled steel, fused at 800°C
- Additional wings provide more writing space
- Suitable for very intensive and long-term use
- Anodised aluminium frame with plastic corner pieces
- Includes mounting materials and 30 cm pen tray
- Magnetic, dry wipe

Dimensions	Article number
120 x 90 cm	13016.110
90 x 60 cm	13016.111

### RC-10 three surface whiteboard, white enamel

- Writing surface of white enamelled steel, fused at 800°C
- Additional wing provides more writing space
- Suitable for very intensive and long-term use
- Anodised aluminium frame with plastic corner pieces
- Includes mounting materials and 30 cm pen tray
- Magnetic, dry wipe

# School boards

## Softline 19 mm

Winged school boards are made for very intensive use. Components such as hinges are extra strong, for example. Thanks to the extra flat aluminium profile, the school boards can be made with a lightweight core. They can therefore also be mounted on height-adjustable structures (columns).

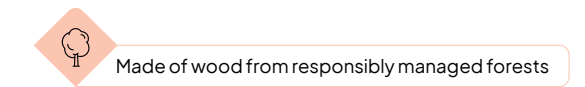

Winged school board, white enamel,  
Softline 19 mm

- Writing surface of white enamelled steel, fused at 800°C
- Suitable for very intensive and long-term use
- Anodised aluminium frame with plastic corner pieces
- With pen tray along the entire width of the middle surface including 2 sponge holders
- With chalk trays at the bottom of the wings
- Mounting materials included
- Magnetic, dry wipe

Dimensions  
120 x 200 cm  
100 x 200 cm

17103.100

# Projection boards ExtraFlat

Winged projection boards are lightweight, allowing them to be mounted on columns (see from page 98).

These boards can have recesses in them for touch sensor modules. The wings can then still be folded away completely. The grey strip on the board is the area where the module can be installed.

Projection ratio/ size 16:10, 83"	Dimensions 128 x 201 cm	Article number 17106.201
Aluminium pen tray, 31 cm (optional):		18400.040

ExtraFlat Projection Board, Low Gloss,  
finger touch, 16:10

- Projection surface of Low Gloss enamelled steel fused at 800°C
- The board has two wings with a double-sided writing surface of white enamelled steel fused at 800°C
- Suitable for short-throw / ultra short-throw interactive finger-touch projectors (16:10) such as Epson EB-695Wi or EB-735Fi
- Includes grey strip for touch sensor
- Suitable for very intensive and long-term use
- Anodised aluminium frame with plastic corner pieces
- Mounting materials included
- Magnetic, dry wipe

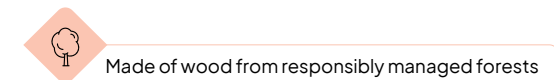

Projection ratio/ size 16:9, 94"	Dimensions 126 x 231 cm	Article number 17106.208
Aluminium pen tray, 31 cm (optional):		18400.040

ExtraFlat Projection Board, Low Gloss,  
finger touch, 16:9

- Projection surface of Low Gloss enamelled steel fused at 800°C
- The board has two wings with a double-sided writing surface of white enamelled steel fused at 800°C
- Suitable for short-throw / ultra short-throw interactive finger-touch projectors (16:9) such as Epson EB-1485Fi or EB-735Fi
- Includes grey strip for touch sensor
- Suitable for very intensive and long-term use
- Anodised aluminium frame with plastic corner pieces
- Mounting materials included
- Magnetic, dry wipe

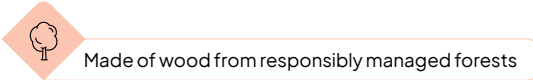

Projection ratio/ size	Dimensions	Article number
16:10, 88"	120 x 192 cm	17106.200
Aluminium pen tray, 31 cm (optional):		18400.040

Winged ExtraFlat Projection Board,  
Low Gloss, 16:10

- Projection surface of Low Gloss enamelled steel fused at 800°C
- The board has two wings with a double-sided writing surface of white enamelled steel fused at 800°C
- Suitable for short-throw / ultra short-throw (interactive pen) projectors (16:10) such as Epson EB-685Wi, EB-1480Fi or EB-725Wi
- Suitable for very intensive and long-term use
- Anodised aluminium frame with plastic corner pieces
- Mounting materials included
- Magnetic, dry wipe

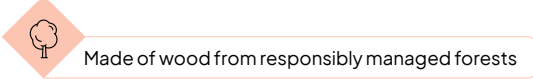

Projection ratio/ size	Dimensions	Article number
16:9, 95"	120 x 214 cm	17106.205
Aluminium pen tray, 31 cm (optional):		18400.040

Winged ExtraFlat Projection Board,  
Low Gloss, 16:9

- Projection surface of Low Gloss enamelled steel fused at 800°C
- The board has two wings with a double-sided writing surface of white enamelled steel fused at 800°C
- Suitable for short-throw / ultra short-throw (interactive pen) projectors (16:9) such as Epson EB-1480Fi or EB-725W
- Suitable for very intensive and long-term use
- Anodised aluminium frame with plastic corner pieces
- Mounting materials included
- Magnetic, dry wipe

Dimensions	Article number
120 x 190 cm (16:10)	13002.520
120 x 165 cm (4:3)	13002.500

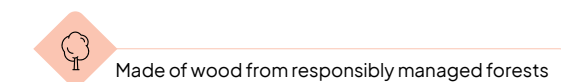

White wheeled Base (p. 137)	14013.100
--------------------------------	-----------

## Cabinet

- Lockable presentation cabinet with two double-sided writable doors with a white enamelled steel surface, includes Design flip-chart holder (drilled) and flip-chart paper (50 sheets)
- Low Gloss enamelled steel base (centre) with a white aluminium profile
- Suitable for wall mounting or placing over wheeled base (see page 137)

# Wall-mounted boards height- adjustable

The height-adjustable writing boards can easily be changed or moved. Each suspension system has its own benefits and attributes, but they all provide flexibility of use.

## Single-surface columns

Teachers and lecturers have been using Smit Visual column boards for decades. An icon in the classroom and still very relevant from an ergonomic point of view.

Dimensions	Article number

## Winged columns

Our column boards are made of extremely solid materials, which makes them suitable for long-term intensive use. Furthermore, thanks to the counterweight construction, the height can easily be adjusted.
